CA 260 D100 T-shirt

By Tracey Ho Date: 30 October 2023

How I deconstruct T-shirt?

Step 1. First I used seam ripper to cut off the collar of the shirt to make it a circle.

Step 2. Cutting off the sleeves

Step 3. Cut out the sleeve hems off to make it flat.

Step 4. The appearance of the shirt. As a result of how the T-shirt turned out is I cut off the shoulder line of the shirt and made it to one fabric piece.

Step 5. (optional) taking the second half of the collar.
